

JAVA DEVELOPER

POSITION SUMMARY:

Seeking a software engineer to develop, deploy and maintain web-based software solutions for a Federal Government client.

As one of the technical experts, you must demonstrate technical leadership in systems integration and development activities for the client. Moreover, as a representative of the company, you must possess effective communication and interpersonal skills to build and maintain effective working relationships with the client. Occasional travel between client sites may be required. US Citizenship is a requirement for this position. Candidate may be subject to a security background investigation.

Position requires strong knowledge and experience with web application development, deployment and maintenance. Experience with HTML design, J2EE development, software architecture and design patterns is required. Must also have experience with Spring Framework, Javascript Libraries including JQuery and Dojo, Apache Struts 2.x, Apache Tomcat 5 or later, JPA, MS SQL, PL/SQL, T-SQL, and working knowledge of Hibernate Annotations. Candidate will assist with on-going web applications support, administration, documentation and procedures.

QUALIFICATIONS:

Education: Bachelor's degree in Computer Science or related field is recommended but not required.

Experience: Three (3) to five (5) years' experience in the development of web-based software solutions, including the deployment and support of those solutions.

Skills:

- Demonstrated understanding of J2EE, HTML, Javascript, and CSS.
- Must possess experience with one of the following: Spring Framework, Apache Struts 2.x, and Apache Tomcat 5 or later.
- Demonstrated proficiency in MS SQL Server or other database development.
- Demonstrated experience using a versioning tool like SVN and an Integrated Development Environment (IDE).

Please email your resume and cover letter which includes your salary requirements to: careers@e-mcinc.com
